

Black box testing

Team: Nanxin Jin, Weijie Meng, Yang Shi, Jintao Zeng, Yaoxi Liang

Defect No.	Defect Description	Defect Severity	Test Case No. OR Description
1	Not able to log in with purdue career account(Not implemented)	1	1.1
2	Registration success with invalid name information(numbers in first name and last name field)	1	1.3
3	Registration success with invalid email information(ex:qwe@qwe.qwe)	1	1.3
4	Instead of showing error message, the website is down when a student is trying to add another student	2	2.2
5	Add student success when trying to add an RA's account	1	Logged in as RA and add myself to the floor
6	'Add war' button does not work	1	4.1
7	Successfully request a war with invalid war date(date before current time)	1	4.2
8	No error message shown when requesting a war with invalid opponent floor selected	2	4.3
9	Instead of showing error message, the website is down when trying to approve a war as a student	1	5.2
10	The title of Your Building's Floors is always Floor2 no matter what floor the RA chooses when RA registers.	1	Choose a floor other than floor 2 when register, and then login and "open Your Building's Floors"
11	The drop down list is malfunctional in someway, which has a big chunk of space among each floor	1	When choosing opponent among each floor
12	When a student user rejects a war, the web	1	6.2

	fail to alert the user s/he cannot deny the war, and the web redirects to a blank page		
13	When RA inputs an invalid score (include character), no error message show up and RA can still submit the invalid input score.	2	7.2
14	When a student user inputs a score, no error message show up and the web redirects to a blank page	1	7.4
15	A RA can input score for result even when the war has not been approved or denied	1	If the war has not been approved or rejected, RA should not be able to input result
16	A RA can still input score for both teams even the war is rejected	1	Input the score after a war is rejected
17	A user can view the results even when the war has not been approved or denied.	1	8.1
18	A user should be able to view the results, but user cannot view the opponent's score	2	8.1
19	The "wins" becomes -1 when the floor loses in the first round.	2	8.1
20	The opponent's name is messed up in the war list.(The opponent's name is the same as the player's name.)	2	8.1
21	A user should be able to view the overall record for each floor, but there is no such function in the web.	2	10.1
22	Multi-floor tournaments can't be set up by either a RA or student.	2	11.1
23	Students are not able to comment on floor war ideas.	1	12.1
24	RA is not able to set up floor dinners using the same infrastructure used for planning wars	2	14.1
25	As a student, the Add Student button takes user to a blank page instead of giving an	2	Logged in as a student and then

	warning		click the add student button. To test whether the add student button works correctly when the user is a student.
